2	Indices and tables	5

Contents:

CHAPTER 1

Installation

1.1 PyPI

tox2travis is available on the Python Package Index. This makes installing it with [pip](#) as easy as:

```
pip install tox2travis
```

1.2 Git

If you want the latest code or even feel like contributing, the code is available on [Github](#).

You can easily clone the code with git:

```
git clone git://github.com/mineo/tox2travis.git
```

Now you can start hacking on the code or install it system-wide:

```
python3 setup.py install
```

1.3 Setup

API:

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`
